MIYAZAKI A4 & A5 WAGYU

En Yakiniku takes pride in sourcing quality beef cuts airflown from the famed wagyu ranches of the Miyazaki prefectures in Kyushu, Japan. The ranch owners raise their cattle and provide them with high quality grains, wheat, rice and fresh water from the mountains. Miyazaki prefecture is well known for its lush greenery and high quality ingredients. The nutrients of the land is given to each and every Miyazaki wagyu, resulting in one of the highest grades of wagyu beef in the world.

宮崎 A5 牛リブアイ

厚切り牛タン Thick Sliced Gyu Tan [Shio]

\$33.⁹⁰

Thick Sliced Beef Tongue:

The back half of the cow's tongue is thickly sliced and scored across the surface of the meat before grilling to tenderize the cut.

As it does lesser work than its front half, it often has a more tender and juicier bite.

ネギ牛タン Negi Gyu Tan [Shio]

\$27.⁹⁰

Beef Tongue with Spring Onions:

Thin slices of Gyu Tan topped with a bed of spring onions for a greater balance of taste and texture.

Grill the underside for a longer period, then roll the slice to wrap the spring onions together.

イチボ Ichibo [Shio / Tare]

\$19.⁸⁰

The Rump Cap:

Ichibo is the top part of the beef's buttock/rump area that contains somewhat more fat than a rump steak and is more tender, with an intensive taste.

\$28.⁹⁰

カルビ Karubi [Shio / Tare]

US Prime Short Rib:

Karubi, or boneless short rib / flanken-cut rib, is one of the most popular cuts of beef for yakiniku.

Tender and very juicy, karubi has more marbling than roast cuts do.

サーロイン Saroin [Shio / Tare]

US Beef Striploin:

One of the most popular cuts for steak for both steaks and yakiniku, and for good reason — the meat is cut from the back of a cow, and is a balance of tender, juicy and flavourful.

ミスジ Misuji [Shio / Tare]

The Oyster Blade:

Located just under the shoulder blade, this rare cut yields only about three kilograms from each cow and has a complex, rich flavour as it's a muscle that did plenty of work.

PROFILE

ハラミ Harami [Shio / Tare]

\$19.⁸⁰

Outside Skirt Steak:

The skirt steak is close to the diaphragm area of the cow, and has a bold, almost minerally-flavour that takes well to marination.

サガリ Sagari [Shio / Tare]

\$18.⁸⁰

Hanging Tender:

The hanging tender is a rare cut with low yield per cow, taken from the lower diaphragm in the ventral area. It is moist and tender, much like the outside skirt, but with a milder flavor.
